Independent Auditors' Report

Board of Directors
Lawrenceville Plasma Physics, Inc.
D/B/A LPPFusion, Inc.
Middlesex, New Jersey

We have audited the accompanying financial statements of Lawrenceville Plasma Physics, Inc. (D/B/A LPPFusion, Inc.), which comprise the Balance Sheet as of September 30, 2020, and the related Statements of Operations and Accumulated Deficit and Cash Flows for the year then ended, and the related Notes to the Financial Statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Lawrenceville Plasma Physics, Inc. (D/B/A LPPFusion, Inc.) as of September 30, 2020, and the results of its operations and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

LAWRENCEVILLE PLASMA PHYSICS, INC.
D/B/A LPPFusion, Inc.
Notes to the Financial Statements

Note 1 - Summary of significant accounting policies

Description of the company

Lawrenceville Plasma Physics, Inc., D/B/A LPPFusion, Inc. (the Company), incorporated in 2003, is a development-stage enterprise, researching and developing an economical, ecologically safe energy generation technology called Focus Fusion. This technology uses a Dense Plasma Focus device, fueled by hydrogen and boron, and converts energy directly into electricity.

The Company has already achieved major experimental milestones. Of the three factors that serve as an indicator of fusion energy yield (temperature, density and confinement time), the Company has so far achieved adequate temperature and confinement time for net energy. It plans to carry out scientific experiments to demonstrate the scientific feasibility of its approach and develop a prototype fusion generator. The Company expects that it will achieve profitable operation after that time primarily by selling licenses for the manufacture of the generators and from the royalties from those licenses.

Change in accounting standards

ASU 2014-09: On October 1, 2019, the Company adopted Accounting Standards Update, (ASU) 2014-09 *Revenue from Contracts with Customers* issued by the Financial Accounting Standards Board (FASB). This standard and all subsequent amendments to the ASU, create a single framework for recognizing revenue from contracts with customers. As a result of this adoption, management has determined that the Company' method of recording revenue did not require a material change in order to be compliant with this standard.

Use of estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and to disclose contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Income taxes

Deferred income taxes reflect the temporary differences in reporting assets and liabilities for income and financial accounting purposes. These temporary differences arise primarily from the recognition of accelerated depreciation for income tax purposes and net operating loss carryforwards.

With few exceptions, the Company is no longer subject to the U.S. Federal, state or local income tax examinations by tax authorities for years before 2016.

LAWRENCEVILLE PLASMA PHYSICS, INC.
D/B/A LPPFusion, Inc.
Notes to the Financial Statements

Note 1 - Summary of significant accounting policies (continued)

Property and equipment

Property and equipment are stated at cost. Repairs and maintenance costs are expensed, while additions and betterments are capitalized. Depreciation is being provided for principally by the straight-line method over estimated useful lives of the related assets.

	Estimated Useful Life
Leasehold improvements	39 years
Machinery and equipment	10 years
Software	3 years

Revenue recognition

Revenue consists of subscription payments and sponsored research agreement provided by a non-profit organization.

ASU 2014-09: The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers*. This ASU as modified by ASU 2015-14, changes the timing of recorded revenue for services performed. This ASU was effective to the Company in the year ending September 30, 2020. As a result of this adoption Management has determined that the Company's method for recording revenue did not require a material change in order to be compliant with this standard.

Note 2 - Concentration of credit risk

The Company maintains its cash in bank deposit accounts, which may at times, exceed federally insured limits. At September 30, 2020, no amount was at risk.

Note 3 - Property and equipment

Property and equipment at cost is summarized as follows:

Leasehold improvements	\$	114,592
Software		22,681
Machinery and equipment		1,075,287
Total property and equipment		1,212,560
Less: accumulated depreciation		840,068
Property and equipment, net	\$	372,492

Depreciation expense for the year ended September 30, 2020 was \$64,732.

Note 4 - Paycheck Protection Program loan

The Company received a \$73,945 Paycheck Protection Program Loan. The loan accrues interest at a rate of 1%. The Company expects the full amount of the loan to be forgiven.

LAWRENCEVILLE PLASMA PHYSICS, INC.
D/B/A LPPFusion, Inc.
Notes to the Financial Statements

- Note 5 - Deferred revenue
Represents the unearned portion of a sponsored research agreement.
- Note 6 - Patents
The Company has been granted patents in the United States, Australia, Canada, China, and the European Union, and has an outstanding patent application in India.
- Note 7 - Stock option plan
Pursuant to the Company's Stock Option Plan, the Company will issue from time to time, to employees, officers, directors and consultants of the Company, options to purchase shares of the Company's common stock.

Options are granted with an exercise price equal to the fair value of the Company's stock at the date of the grant; the options generally vest immediately. The exercise price for the options range from \$100 to \$125. The options generally have ten-year contractual terms. The fair value of each option award was the market price of the stock as determined arbitrarily by the management of the Company on the date of the issuance. At September 30, 2020, there were 7,514 options outstanding.

There was no compensation expense recorded for any of the options because management of the Company, using qualitative inputs, has determined the fair value to be negligible.

- Note 8 - Operating leases
The Company leases space under a non-cancelable operating lease which expires January 2022. Rent is paid monthly. Rent expense for the year ended September 30, 2020 was \$24,068.

The future minimum operating rental payments in excess of one year are as follows:

2021	23,660
2022	7,960

- Note 9 - Income taxes
The provision for income taxes for the year ended September 30, 2020 is as follows:

Current state taxes	<u>\$ 1,125</u>
---------------------	-----------------

As of September 30, 2020, the Company has available a cumulative net operating loss carryforward of \$7,847,409 which begins to expire in 2027 and a book to tax temporary difference of \$76,900 arising from the recognition of accelerated depreciation for income tax purposes. Because of the more likely than not assessment that the deferred tax asset will not be used, an allowance equal to the amount of the deferred tax asset has been recorded.

LAWRENCEVILLE PLASMA PHYSICS, INC.
D/B/A LPPFusion, Inc.
Notes to the Financial Statements

Note 10 - Supplemental disclosure of cash flow information

Cash paid during the years ended September 30, 2020 and September 30, 2019 are as follows:

	2020	2019
Interest	\$ 525	\$ -
Income taxes	\$ 128	\$ -

Note 11 - Change in Accounting Standards

ASU 2016-02: FASB issued ASU 2016-02, *Leases*. This ASU recognizes as a liability, non-cancellable lease. The liability is offset by an amortizable asset called a right to use. This ASU will be effective to the Company in the year ending September 30, 2022. Management has not completed its assessment of the impact of this change.

Note 12 - Risk/uncertainties

The Company's activities are subject to significant risks and uncertainties, including failing to secure additional funding to operationalize the Company's current technology before another company develops similar technology.

On January 30, 2020, the World Health Organization (WHO) announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (The COVID-19 outbreak) and the risks to the international community as a virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. As such, it is uncertain as the full magnitude that the pandemic will have on the Company's financial condition, liquidity, and future operations. Management is actively monitoring the impact of the global situation on its financial position, liquidity, operations and industry. Given the daily evolution of the COVID-19 outbreak and the global responses to curb its spread, the Company is not able to estimate the effects of the COVID-19 outbreak on its results of operations, financial condition or liquidity for the year ending September 30, 2021.

Note 13 - Subsequent events

The Company's management has determined that no material events or transactions occurred subsequent to September 30, 2020 and through January 25, 2021, the date of the Company's financial statement issuance, which require additional disclosure in the Company's financial statements.
